## "BILL" WAGNER'S IMPROVED PREDICTION SUPREME

(Copyright 1948, by Kanter)

Wagner has improved the mechanics of his original "miracle" so greatly that even though you were familiar with the basic principle you would be overjoyed if you purchased this complete master method which makes it perfect in every detail. Many call it . . .

### "THE GREATEST CARD TRICK OF THEM ALL"

Here is a reputation builder — easy to do when you possess this streamlined master method which is now Kanter's property, and has never before been offered.

Spectator No. 1 holds performer's sealed prediction. No. 2 cuts a shuffled pack and secretly notes the card at the cut. Pack reassembled, shuffled and divided, No. 2 running thru to find his card. Whichever packet is known by No. 2 to contain the chosen card, is then genuinely shuffled and spread in a row, face down, on the table. Spectator No. 3 now pushes ANY ONE CARD out from the row of face-down cards, balance of cards being set aside.

No. 1 opens envelope and reads prediction, "You will select the Five of Clubs." No. 2 acknowledges that he cut to the Five of Clubs. Performer remarks, "A miracle? Yes . . . but now for the double miracle . . . what if the card I willed No. 3 to set aside from the face-down row, turns out to be the very same card! . . . No. 3, will you please turn it over and show it to all? . . . It IS the Five of Clubs." To cap the climax, the pack is at once given for inspection — it is quite regular, and if desired, may be used for many effective tricks thereafter. These special features make it . . .

### A SENSATIONAL EFFECT FOR ANY CARD MAN OR MENTALIST

In this copyrighted, improved method there are no doubtful elements, failure is impossible, you do the trick five minutes after you get it . . .
